This Private Series – Australian Small and Mid Cap Equity Trust ('Fund') Additional Information Guide ('AIG') has been prepared and issued by Ironbark Asset Management (Fund Services) Limited 63 116 232 154 AFSL No. 298626 ('Responsible Entity', 'we', 'us', 'our'), a wholly owned subsidiary of Ironbark Asset Management Pty Ltd ABN 53 136 679 420 AFSL No. 341020 (collectively 'Ironbark').

Contact details

Ironbark is responsible for providing client services to the Fund. If you have an enquiry or would like more information, contact an Ironbark representative:

 Phone: 1800 034 402

 Email: client.services@ironbarkfg.com.au

 Website: www.ironbarkfg.com.au

The information in this document forms part of the Product Disclosure Statement ('PDS') for the Fund dated 24 June 2026. You should read this information together with the relevant PDS and Target Market Determination ('TMD') before making a decision to invest in the Fund. The PDS and this AIG are available at ironbarkfg.com.au/investment-solutions/corporate-trustee or you can request a free paper copy by contacting Ironbark.

The information provided in this AIG is general information only and does not take account of your personal financial situation or needs. You should obtain professional financial advice tailored to your personal circumstances.

Certain information may change from time to time. We may update this AIG with changes that are not materially adverse without issuing a replacement AIG. If we consider there is a change that is materially adverse, we will replace this AIG. Updated information and any replacement AIG will be available at ironbarkfg.com.au/investment-solutions/corporate-trustee and you can also obtain a paper copy or an electronic copy free of charge, by contacting Ironbark.

1 How the Fund works

Applications

We will only start processing an application if:

- you have correctly completed the Application Form;
- you have provided the relevant identification documents;
- application money (in cleared funds in the amount stated in your Application Form) has been received. The time it takes for application money to clear varies depending on how you transfer the money and your bank (it may take up to four Business Days); and
- the Application Form, identification documents and cleared funds have been received by Unit Registry.

We reserve the right to accept or reject applications in whole or in part at our discretion and delay the processing of applications where we believe it to be in the best interest of all the Fund's investors.

Any interest earned on application money for the Fund will not be credited in favour of the applicant and will be retained within the application account.

The Responsible Entity will not be liable to an investor for any losses incurred, including from market movements, if an application is rejected or the processing of an application is delayed.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

In some circumstances, such as where an investor makes a large application or withdrawal request, Ironbark may determine that a special distribution be calculated and distributed earlier than usual, for example:

- in the event of an application, to prevent dilution of distributable income to the existing investors; and
- in the event of a withdrawal, to ensure the redeeming investor receives their share of distributable income so the remaining investors are not left to bear the redeeming investor's portion of taxable income.

There may also be a special attribution of taxable components to redeeming investors under the Attribution Managed Investment Trust ('AMIT') regime. In these circumstances, the redeeming investor will receive their redemption proceeds at the time of redemption and will receive an AMIT Member Annual Statement ('AMMA Statement') for the income year which will disclose the components of income attributed to the investor as part of their redemption proceeds. Where some of the redemption proceeds are recategorised as income, this may affect the calculation of any capital gain or loss on disposal. In certain cases, assessable income may be attributed to the investor in the absence of any cash distribution or reinvestment. Such attribution will be offset with a corresponding cost base increase in the AMMA statement.

Investors should obtain professional tax advice concerning their own personal circumstances.

Refer to the 'How managed investment schemes are taxed' section in this AIG for further details on the AMIT regime.

Withdrawals

You may withdraw some or all of your units in the Fund by completing a withdrawal form that can be accessed online at ironbarkfg.com.au/investment-solutions/corporate-trustee or giving a duly authorised written instruction to Unit Registry.

We will consider your withdrawal to have been accepted if:

- you have correctly completed the withdrawal instruction by providing the required information;
- we have verified your signature or authorised signatories if applicable; and
- a valid bank account is provided. Third-party payments cannot be made.

If the bank account listed on the withdrawal request is not the same as the one we have on file, we may contact you to provide additional information to validate the instruction

When you are withdrawing, you should take note of the following:

- we are not responsible for processing delays as a result of an investor failing to provide nominated account information (please note we are unable to pay to third-party accounts);
- we may need to contact you to verify your account details before processing your withdrawal request, which may cause a delay in finalising your withdrawal;
- if we cannot satisfactorily identify you as the withdrawing investor, we may reject your withdrawal request;
- we are not liable for any loss incurred as a result of you providing incorrect payment information;
- the withdrawal price will vary as the market value of the Fund's assets rise or fall. An investor's withdrawal can only be processed upon the acceptance of a correctly completed withdrawal instruction;
- we reserve the right to fully withdraw your investment if, as a result of processing your withdrawal request, your investment balance falls below the minimum balance of the Fund;
- as an investor who is withdrawing, you agree that any payment made according to instructions received by post, courier or fax shall be at the complete satisfaction of our obligations, despite any fact or circumstances such as the payment being made without your knowledge or authority; and
- you agree that if the payment is made according to these terms, you and any person claiming through or under you, shall have no claim against us about the payment.

Ironbark is not liable for any loss an investor may incur due to delays or rejection of a withdrawal request where we have not been able to accept your withdrawal instruction.

Withdrawal restrictions or suspensions

Subject to the Constitution for the Fund and the Corporations Act, the Responsible Entity may at any time suspend or delay the acceptance of withdrawal requests, the withdrawal of units and/or the payment of withdrawal amounts for the Fund for 180 days or such longer or shorter period as is appropriate in all circumstances, for example if:

- there is a circumstance outside its control which it considers impacts on its ability to properly or fairly calculate the withdrawal price, for so long as the circumstances continue (for example, if the assets or relevant currencies are subject to restrictions or if there is material market uncertainty);
- the Responsible Entity receives withdrawal requests within one day of an aggregate value that exceeds 10% of the value of the NAV of the Fund;
- the Responsible Entity receives withdrawal requests at a particular time where a portion of the Fund's assets comprise illiquid assets (being assets not readily converted to cash). In this case the Responsible Entity can redeem such number of

units that correspond to the portion of the Fund's liquid assets, and redeem the remaining units at such future time as it determines;

- the terms of the investment or of any financial accommodation practically require such delay or would be breached if there was not delay;
- where redemption would cause the Responsible Entity to breach any law, regulations or obligations under which the Responsible Entity operates;
- there have been, or the Responsible Entity anticipates that there will be, withdrawal requests that involve realising a significant amount of the assets and the Responsible Entity considers that if those withdrawal requests are all met immediately, investors who continue to hold units may bear a disproportionate burden of capital gains tax or other expenses, or the meeting of those withdrawal requests would otherwise be to the existing investors' disadvantage;
- any relevant financial, stock, bond, note, derivative or foreign exchange market (including the ASX) is closed or trading on any such market is restricted in any way; or
- the ability of the Responsible Entity to dispose of assets or determine the withdrawal price fairly is, or may be, adversely affected;
- sufficient assets of the Fund cannot be realised at an appropriate price, in a timely manner or on adequate terms or otherwise;
- there are insufficient cash reserves available to meet redemptions and pay the operating expenses of the Fund;
- subject to the Corporations Act, such other circumstance as the Responsible Entity determines to be appropriate in its absolute discretion having regard to the best interests of investors as a whole; or
- it is otherwise legally permitted.

If the Fund becomes illiquid

If the Fund is not liquid as defined in the Corporations Act, withdrawals from that fund will only be possible if the Responsible Entity makes a withdrawal offer in accordance with the Corporations Act. If the Responsible Entity makes a withdrawal offer, investors may be able to withdraw their investment. The Responsible Entity is not obligated to make a withdrawal offer. If an insufficient amount of money is available from the assets specified in the withdrawal offer to satisfy withdrawal requests in full, the requests will be satisfied proportionately amongst those investors wishing to withdraw from that Fund.

Under the Corporations Act, the Fund is regarded as liquid if liquid assets account for at least 80% of the value of the assets of the Fund. Liquid assets generally include money in an account or on deposit with a bank, bank-accepted bills, marketable securities and property of the kind prescribed under the Corporations Act.

As at the date of the PDS, the Responsible Entity expects that the Fund will be liquid.

Transferring units

You may transfer units in the Fund to another person. To do this contact Ironbark for instructions on how to complete the transfer. Additionally, you will need to send:

- a signed and completed Australian standard transfer form that you can download from ironbarkfg.com.au/investment-solutions/corporate-trustee; and
- a completed Application Form from the Fund PDS current at the time, completed by the person to whom the units are being transferred as a new applicant to the Fund. For further

information on completing an Application Form refer to the 'How to apply' section of the Fund PDS.

We reserve the right to decline certain transfer requests at our discretion. A transfer involves a disposal of units and may have tax implications. We recommend that you obtain tax and legal advice (as necessary) before requesting a transfer.

For indirect investors, you should contact your IDPS operator if you wish to transfer your units.

Authorised signatory

You can appoint a person, joint applicant, partnership or company as your authorised signatory. To do so, please nominate them on the initial Application Form and have them sign the relevant sections. If no amendments have been made, the authorised signatories to your investment are the individuals who signed the initial investment application form or in the case of a company, Ironbark have been able to validate the officeholder signatures.

For joint investors, unless you specify otherwise, we will assume that one of the investors has the authority of the other investor(s) for all transaction requests (including withdrawals) and any instructions (including any changes to address or bank account details).

If a company is appointed, the powers extend to any 2 directors or 1 director and 1 company secretary. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

If you request to apply any investments to an existing account number, any financial adviser or authorised signatory with access to transact on and/or view that account can transact on and/or view any additional investments under that account.

Once appointed, your authorised signatory can operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions to be changed;
- withdrawing all or part of your investment;
- changing bank account details; and
- enquiring and obtaining copies of the status of your investment.

If you do appoint an authorised signatory:

- you are bound by their acts;
- you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, account claims and demands arising from instructions received from your authorised signatory; and
- you agree that any instructions received from your authorised signatory shall be to the complete satisfaction of our obligations, even if the instructions were made without your knowledge or authority.

Your privacy – privacy collection notice

When you provide instructions to us or our service providers or delegates, we and our service providers or delegates will be collecting personal information about you. This information is needed to facilitate, administer and manage your investment, and to comply with Australian taxation laws and other laws and regulations. Otherwise, your application may not be processed or we and our service providers or delegates will not be able to administer or manage your investment.

The information that you provide may be disclosed to certain organisations or bodies situated in Australia or overseas, including service providers or business associates who provide

services and financing in connection with our products and services and business functions and activities that may include:

- The Australian Taxation Office ('ATO'), the Australian Transaction Reports and Analysis Centre ('AUSTRAC') and other government or regulatory bodies;
- your broker, financial adviser or adviser dealer group, their service providers and any joint holder of an investment;
- organisations involved in providing, administering and managing the Fund, the administrator, custodian, unit registry, auditors, or those that provide mailing or printing services; and
- those where you have consented to the disclosure and as required by law.

Ironbark may from time to time provide you with direct marketing and/or educational material about products and services Ironbark believes may be of interest to you.

Should you not wish to receive this information from Ironbark (including by email or electronic communication), you have the right to "opt out" by contacting Ironbark, or alternatively by emailing the Ironbark Privacy Officer at privacy@ironbarkfg.com.au.

Subject to some exceptions allowed by law, you can ask for access to your personal information. We will give you reasons if we deny you access to this information. The Ironbark Privacy Policy outlines how you can request to access and seek the correction of your personal information. The Ironbark Privacy Policy is available at www.ironbarkfg.com.au and can be obtained by contacting Ironbark, or alternatively by emailing the Ironbark Privacy Officer at privacy@ironbarkfg.com.au.

You should refer to the Ironbark Privacy Policy for more detail about the personal information that Ironbark collects and how Ironbark collects, uses and discloses your personal information.

If you invest indirectly through an IDPS operator, the Responsible Entity does not collect or hold your personal information in connection with your investment in a Fund. Please contact your IDPS operator for more information about their privacy policy.

AML/CTF

The Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth) and other applicable AML/CTF laws, regulations, rules and policies (together, the '**AML/CTF Laws**') which apply to the Responsible Entity regulate financial services and

transactions in a way that is designed to detect and prevent money laundering and terrorism financing. The AML/CTF Laws are enforced by AUSTRAC.

In order to comply with the AML/CTF Laws, the Responsible Entity is required to, amongst other things, verify your identity and source of your application monies before providing services to you, and to re-identify you if it considers it necessary to do so.

To meet this requirement, we need to collect certain identification information and documentation ('**Know Your Customer ('KYC') Documents**') from new investors. Existing investors may also be asked to provide KYC Documents as part of a re-identification process to comply with the AML/CTF Laws. Processing of applications or withdrawals will be delayed or refused if investors do not provide the KYC Documents when requested.

Under the AML/CTF Laws, the Responsible Entity may be required to submit reports to AUSTRAC. This may include the disclosure of your personal information. We may not be able to tell you when this occurs and, as a result, AUSTRAC may require us to deny you (on a temporary or permanent basis) access to your investment. This could result in loss of the capital invested, or you may experience significant delays when you wish to transact on your investment.

Where required by law, the Responsible Entity may disclose the information gathered to regulatory or law enforcement agencies, including AUSTRAC.

The Responsible Entity and its agents are not liable for any loss you may suffer because of the Responsible Entity's compliance with the AML/CTF Laws or its AML/CTF program.

Conditions for use of the fax transaction facility

By submitting an additional investment form or a withdrawal request, you agree to be bound by the following conditions if you give the Unit Registry a notice by fax:

- you acknowledge that there is a risk that fraudulent fax requests may be made by a third party;
- you agree that none of Ironbark, its officers, employees or agents, are responsible for any fraudulently completed communications and that none of Ironbark, its officers, employees or agents will compensate you for any losses arising from such communications; and
- you release and indemnify Ironbark, its officers, employees and agents against any liabilities whatsoever arising from Ironbark, its officers, employees or agents acting on faxed communications from, or purporting to be from you.

2 How we invest your money

The Constitution

The Fund is governed by the Constitution that sets out how the Fund must operate, and together with the Fund PDS, the Corporations Act and other laws, regulates the Responsible Entity's legal relationship with investors. If you invest in the Fund, you agree to be bound by the terms of the Fund PDS and the Constitution. A copy of the Constitution will be made available on request by contacting the Responsible Entity. Please consider these documents before investing in the Fund.

We may amend the Constitution from time to time in accordance with its provisions and the Corporations Act.

Standard risk measure ('SRM')

The SRM has been developed, at the request of the Australian Prudential Regulation Authority, by the Association of Superannuation Funds of Australia and the Financial Services Council.

The purpose of the SRM is to disclose the level of risk in investing in a particular Fund using a standard measure. It allows investors to compare investments that are expected to deliver a similar number of negative annual returns over any 20-year period.

The SRM is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be, nor does it account for the potential for a positive return to be less than what an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

Investors should still ensure they are comfortable with the risks and potential losses associated with their chosen investment in the Fund.

As shown in the table below, a risk band of 1 suggests a very low risk investment, and a risk band of 7 suggests a very high-risk investment.

Risk band	Risk label	Estimated number of negative returns over any 20 year period
1	Very Low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to Medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to High	3 to less than 4
6	High	4 to less than 6
7	Very High	6 or greater

Labour, environmental, social and corporate governance ('ESG') considerations

The Responsible Entity does not take into account labour standards and environmental, social and ethical considerations for the purpose of selecting, retaining or realising investments of the Fund. However, the Responsible Entity has delegated investment management decisions for the Fund to the Investment Manager. The Investment Manager has delegated the portfolio management of the Fund to the Sub-Investment Managers.

The Fund is not a dedicated ESG strategy, however the Sub-Investment Managers may, but are not required to, take

ESG considerations into account when selecting, retaining and realising investments for the Fund and may consider ESG risks and opportunities as one of a number of factors which may have material long and/or short-term impacts on the valuation and performance of individual investments.

The exact methodologies and approach to ESG integration, and what ESG considerations the Sub-Investment Managers deem to be material to an investment's value, and the degree to which the Sub-Investment Managers integrate ESG considerations into their decision making are determined independently by each Sub-Investment Manager, and their individual approaches may vary from time to time.

The Fund does not have a set approach or time frame for monitoring or reviewing the extent to which an investment aligns with a Sub-Investment Manager's process of considering ESG factors, the actions (if any) taken where such factors are no longer considered, or the extent to which such considerations may impact the current or future financial performance of an investment. Each Sub-Investment Manager for the Fund may adopt its own approach.

Fund performance

The latest available information on the performance of the Fund will be available at ironbarkfg.com.au/investment-solutions/corporate-trustee or by contacting Ironbark on 1800 034 402. Past performance is not an indicator of future performance.

3 Risks of managed investment schemes

All investments carry risks and it is important to consider them before investing into a Fund. The following include the general risks that apply to an investment in a managed investment scheme.

General risks of investing

Risks associated with investing in a Fund generally include the following:

Climate change risk	The physical and non-physical impacts of climate change, and social and governmental responses to those impacts, may materially and adversely affect the value of the assets held by the Fund (directly or indirectly), or the markets to which the Fund has exposure. Adverse physical effects of climate change could include changes in global temperatures, rainfall patterns, water shortages, increased fire risk and an increased number of weather emergencies. The impact of climate change may also increase competition for, and the regulation of, limited resources, such as power and water.
Counterparty risk	There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations which may result in the investment activities of the Fund being adversely affected, causing its value to fall.
Credit risk	Credit risk refers to the risk that a party to a credit transaction fails to meet its obligations. It is the risk that for cash and interest rate investments, income and/or capital investment will not be repaid due to the financial position of the financial institution or issuer of that investment. This creates an exposure to underlying borrowers and the financial condition of issuers of these securities.
Cyber risk	There is a risk of fraud, data loss, business disruption or damage to the Fund or to investors' personal information as a result of a threat of failure to protect the information or personal data stored within the IT systems and networks of the Responsible Entity and those of our service providers.
Distribution risk	It is not guaranteed that distributions from the Fund will be made on a regular basis. Investors should not rely on distributions from the Fund to service other obligations. The level of income distributed to investors can also rise or fall, and the tax status of such income may also change.

Derivative risk	Derivatives are contracts between two parties that usually derive their value from the price of a physical asset or market index. They can be used to manage certain risks in investment portfolios or as part of an investment strategy. However, they can also increase other risks in a portfolio or expose a portfolio to additional risks, including: • the system and security risks associated with electronic platforms used to trade derivatives; • the possibility that the derivative position is difficult or costly to reverse; • that there is an adverse movement in the asset or index underlying the derivative; • that the parties do not perform their obligations under the contract; and • the potential lack of liquidity of the derivative.
ESG strategy and policies risk	The use of ESG criteria and exclusionary screens may affect the Fund's investment performance and, as such, that Fund may perform differently compared to similar funds that do not use such criteria. Where relevant, the Investment Manager has developed its own policies and processes to manage and implement its ESG screening and criteria. There is a risk that these policies and processes are not drafted comprehensively, or updated in a timely manner to reflect an ESG development, or that there is a system or human error or oversight which impacts the correct implementation of the policy or process. Each of these risks, if realised, may impact the ESG credentials of the Fund (where such an ESG strategy is relevant).
Force majeure risk	Circumstances or events beyond our reasonable control may impact the operation, administration, and performance of the Fund. Those include, but are not limited to, industrial disputes, failure of a securities exchange, fires, floods, hurricanes, earthquakes, wars, strikes and acts of terrorism and governmental pre-emption in connection with an emergency of state and pandemics.
Fund risk	Fund risks include the potential termination of the Fund, change of the fees and expenses (in accordance with the Constitution), change in the investment manager or investment professionals of the Investment Manager, or the risk of error in the administration of the Fund. There is also a risk that investing in the Fund may give different results compared to investing individually because of income or capital gains accrued in the Fund and the consequences of applications and withdrawals by other investors. The Responsible Entity aims to manage fund risk by regularly monitoring the Investment Manager and the investment management process to ensure that the Funds are managed in a way that is in investors' best interests as a whole.
Inflation risk	Inflation risk is the risk that returns of your portfolio will not be higher than inflation.
Interest rate risk	Movements in domestic and international interest rates may cause the value of your investments to decline.
Investment manager risk	Investment manager risk refers to the risk that an Investment Manager for the Fund may not achieve the performance objectives of that Fund or not produce returns that compare favourably against its peers for comparable strategies. Additionally, there is the risk that an Investment Manager's investment strategy may not prove to be effective. Many factors can negatively impact the Investment Manager's ability to generate acceptable returns from its investment management process, including loss of key staff.
Liquidity risk	Particular securities or investments may be difficult to purchase or sell, preventing the Fund from closing out a position or rebalancing within a timely period and at a fair price. As a result, withdrawal requests may not be able to be fully met when they are received. Liquidity risk may potentially be amplified where a portfolio invests in listed interest rate securities and certain unlisted managed funds that hold unlisted assets such as infrastructure and real estate assets, where there may be limited or no liquidity at a point in time. Certain assets may be subject to 'stranded asset risk', which occurs when an asset, usually an infrastructure or real estate asset, loses most or all of its value prior to the end of its anticipated economic life due to factors such as technological change, regulatory reform, market or industry changes or climate change. Certain events may also cause normally liquid assets to become illiquid. For example, adverse market conditions and trading halts can affect assets. In such circumstances, withdrawal requests may be scaled back and paid pro-rata, or it may not be possible to meet withdrawal requests for extended periods of time.
Market risk	Investment returns are influenced by the performance of the markets as a whole. Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic conditions, government regulations, market sentiment, local and international political events, wars, terrorism, pandemics, natural, nuclear and environmental disasters and technological issues. The duration and potential impacts of such events can be highly unpredictable which may give risk to increased and/or prolonged market volatility.
Operational risk	The risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. Adverse impacts may arise internally through human error, technology or infrastructure changes, or through external events such as third-party failures or crisis events. These could have an adverse impact on the operation of the Fund.

Regulatory and tax risk	Regulatory risk means that any changes in laws or their interpretations including, but not limited to, taxation and corporate regulatory laws, practice and policy, could adversely affect the value or tax treatment of the Fund or its investments. In certain circumstances, statutory or other restrictions may preclude the acquisition or disposal of investments. There is also a risk that regulatory changes to law may make certain assets less effective in achieving the desired return in the Fund. This also applies to assets outside Australia, which may have exposure to broader economic, social or political factors in addition to regulatory change.
Structural risk	The profile of returns you get from investing through a managed fund may be different from those received if investing directly. In particular, applications into and withdrawals out of a managed fund can impact on the amount and proportion of income or capital gains received. In addition, there is the risk that the Fund could terminate, its manager could change, or that there are changes to the fees and costs of the Fund.

4 Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

Fees and other costs

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment. Information in the following table can be used to compare costs between different managed investment schemes.

Fees and costs summary

Private Series – Australian Small and Mid Cap Equity Trust		
Type of fee or cost ²	Amount ¹	How and when paid
Ongoing annual fees and costs		
<i>Management fees and costs</i> The fees and costs for managing your investment	Management fees and costs of 0.7850% p.a. of the NAV comprised of: 1. Management fee of 0.6800% p.a. of the NAV. ³ 2. Indirect costs of 0.0000% p.a. of the NAV. 3. Expense recovery and responsible entity fee of 0.1050% p.a. of the NAV.	1. Calculated on the NAV of the Fund and accrued daily and reflected in the unit price. The fee is paid monthly in arrears from the assets of the Fund. 2. Indirect costs are variable and generally deducted from the assets of the Fund as and when incurred. They are reflected in the unit price. 3. Expense recoveries are generally deducted from the assets of the Fund as and when incurred and reflected in the unit price of the Fund. The Investment Manager has determined that it will pay any normal operating expenses for the Fund (i.e. Fund expenses other than abnormal costs) that exceed 0.1050% p.a. The expense recoveries cap may be removed at the Responsible Entity's discretion, subject to the law.
<i>Performance fees</i> Amounts deducted from your investment in relation to the performance of the product	Nil.	Not applicable.

Private Series – Australian Small and Mid Cap Equity Trust

<i>Transaction costs</i> The costs incurred by the scheme when buying or selling assets ³	Estimated to be 0.0000% p.a. of the NAV.	These costs are expressed net of any amount recovered by the buy-sell spread and are generally deducted from the assets of the Fund as and when incurred.
---	--	---

Member activity related fees and costs (fees for services or when your money moves in or out of the scheme)²

<i>Establishment fee</i> The fee to open your investment.	Nil.	Not applicable.
<i>Contribution fee</i> The fee on each amount contributed to your investment.	Nil.	Not applicable.
<i>Buy-sell spread</i> An amount deducted from your investment representing costs incurred in transactions by the scheme	0.15% of the application amount on application and 0.15% of the withdrawal amount on withdrawal.	The buy-sell spread is deducted from the application amount received from, or the withdrawal amount to be paid to, applicants and withdrawing unit holders respectively at the time of the relevant application or withdrawal. Retained by the Fund.
<i>Withdrawal fee</i> The fee on each amount you take out of your investment.	Nil.	Not applicable.
<i>Exit fee</i> The fee to close your investment.	Nil.	Not applicable.
<i>Switching fee</i> The fee for changing investment options.	Nil.	Not applicable.

¹ Unless otherwise stated, all fees quoted in this AIG are quoted on a GST inclusive basis, net of any reduced input tax credits.

² Additional fees may apply. Refer to 'Additional explanation of fees and costs' in this section for more information.

³ The management fee can be negotiated with Wholesale Clients. Refer to 'Differential fees' section below under the heading 'Additional explanation of fees and costs'.

Additional explanation of fees and costs

Management fees and costs

Management fees and costs generally include the amounts payable for administering the Fund, amounts paid for investing in the assets of the Fund and other expenses and reimbursements in relation to the Fund and its investments.

The management fees and costs will generally comprise the management fee, indirect costs such as the indirect management fees and costs (if applicable) and any recoverable expenses (if incurred).

The management fee covers the costs of the investment management and sub-investment management services of the Fund.

The management fee is charged by the Responsible Entity and is calculated and accrued daily based on the NAV of the Fund and is reflected in the unit price. It is paid monthly in arrears from the assets of the Fund.

Indirect costs

Indirect costs form part of the management fees and costs and may include fees and expenses arising from any investment which qualifies as an interposed vehicle (e.g. any underlying fund that the Fund may invest in). Indirect fees and costs exclude indirect performance fees. Indirect costs (if applicable) may vary from year to year, including to the extent that they rely on estimates.

Indirect costs (for any underlying funds): Investment managers of any underlying funds that the Fund may invest in will typically charge management fees and these fees are deducted from those underlying funds and the impact is included as part of those underlying funds' unit price. Management fees paid to external investment managers (if applicable) will be an indirect cost to the Fund's investors.

Other indirect costs: In managing the assets of the Fund, the Sub-Investment Manager may engage in trading activity in certain types of derivative financial products that are either not traded or listed on a recognised exchange and/or not used for hedging purposes, but rather to gain or reduce market exposure (e.g. derivatives such as forwards, over-the-counter options and swap arrangements). Engaging in trade activity of these types of products may give rise to other indirect costs.

Expense Recovery

Under the Constitution, the Responsible Entity is entitled to be reimbursed out of the assets of the Fund for all expenses incurred in the proper performance of its duties in the operation of the Fund. These expenses may include fund accounting, unit registry, audit costs, postage and preparation of tax returns and any abnormal expenses such as costs of any legal proceedings involving the Fund. Where the Fund incurs normal operating expenses in excess of the cap of 0.1050% p.a. for a financial year, the excess expenses will be paid by the Investment Manager. The Fund will repay these amounts to the Investment Manager only as and when the Fund's expense recovery is below its cap of 0.1050% p.a. There will be no interest incurred by the Fund under this arrangement with the Investment Manager.

Normal expense recoveries: The normal operating cost of the Fund (i.e. Fund expense other than abnormal expenses) are generally based on actual costs incurred for the previous financial year except where such costs are not known to the Responsible Entity. Where such costs are not known to the Responsible Entity, the normal operating cost of the Fund will be based on the Responsible Entity's reasonable estimate of the costs for the current financial year. The expense recovery for the Fund is detailed in the PDS.

Abnormal expense recoveries: The abnormal operating cost of the Fund (i.e. Fund expense other than normal expenses) are

generally based on actual costs incurred for the previous financial year except where such costs are not known to the Responsible Entity. Where such costs are not known to the Responsible Entity, the abnormal operating costs of the Fund will be based on the Responsible Entity's reasonable estimate of the costs for the current financial year. Abnormal expenses are generally deducted from the assets of the Fund as they arise.

Performance fees

A performance fee is not charged for the Fund.

Transaction costs

Transaction costs are the costs incurred when assets are bought and sold by the Fund and include brokerage, buy-sell spreads, settlement costs (including custody costs), clearing costs and

stamp duty. Transaction costs may also include costs incurred by an interposed vehicle and certain costs in relation to derivative financial products. Transaction costs are an additional cost to you. Transaction costs are generally deducted from the assets of the Fund as and when incurred.

The transaction costs disclosed in the PDS of the Fund are shown net of any amount recovered by the buy-sell spread.

The transaction costs are the Responsible Entity's reasonable estimate based on the costs incurred in the current financial year.

Please refer to the following table for the transaction costs associated with the Fund (disclosed as a percentage of the NAV of the Fund inclusive and exclusive of the recovered buy/sell spread).

	Gross transactional and operational cost (p.a.)	Net transactional and operational cost (p.a.)	For every \$20,000 you have invested, you will pay:
Private Series – Australian Small and Mid Cap Equity Trust	0.0800%	0.0000%	\$0

Buy/sell spread

The buy/sell spread reflects the estimated costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. This aims to ensure other investors do not bear the transaction costs associated with a particular investor buying or selling units in the Fund. The buy/sell spread is an additional cost to you but is incorporated into the unit price and incurred when you invest in or withdraw from the Fund and

is not separately charged to you. The buy/sell spread is paid into the Fund and not paid to the Responsible Entity or Investment Manager. We may vary the buy/sell spread from time to time in accordance with relevant law. Updated information on the buy/sell spread will be posted online at ironbarkfg.com.au/investment-solutions/corporate-trustee. Reinvested distributions do not incur a buy/sell spread.

The buy/sell spread for the Fund can be found in the PDS.

Changes to fees and costs

We may increase or decrease our fees without investor consent, subject to the following maximum fee amounts specified in the Fund's constitution. We will give direct investors 30 days' notice of any proposed fee increase in accordance with the law.

Please note that the fees set out below represent the maximum entitlements under the Constitution for fees payable to the Responsible Entity and Investment Manager from the assets of the Fund. Although the Responsible Entity is entitled under the Constitution to charge a Responsible Entity fee, it does not currently exercise that right and does not charge the Fund a Responsible Entity fee.

Maximum fees allowable under the Constitution ¹	Responsible Entity Fee (p.a.)	Investment Manager Fee (p.a.)	Contribution fee (p.a.)	Withdrawal fee (p.a.)
Private Series – Australian Small and Mid Cap Equity Trust	2.20%	4.40%	N/A	N/A

¹ All maximum fees stated above are inclusive of GST.

Bank and government charges

In addition to the fees set out in this section, standard government fees, duties and bank charges may also apply to investments and withdrawals (including dishonour fees and bank charges) and may be payable by you.

Goods and services tax ('GST')

All fees quoted in this AIG are on a GST inclusive basis, net of any reduced input tax credits, unless otherwise stated.

Further information on taxation is available in section 5 of this AIG.

Differential fees

We may negotiate different fee arrangements, such as fee rebates, waivers or reductions, with Wholesale Clients. Such arrangements would be subject to individual negotiation and compliance with the legal and regulatory requirements. For more information, please contact Ironbark using the contact details provided on page 1 of this AIG.

5 How managed investment schemes are taxed

Taxation of the Fund

This section provides general information only on selected Australian income tax matters and is only applicable to Australian resident investors in the Fund that hold their units on capital account. The tax comments in this section do not take into account the specific circumstances of the investor. In particular, they may not be relevant to investors that are subject

to special tax rules such as banks, insurance companies, managed investment trusts, tax exempt organisations and dealers in securities.

Warning: Ironbark cannot give tax advice in respect of investments in the Fund. Investing in a registered managed investment scheme (such as in the Fund) is likely to have tax consequences. Australian tax laws are complex and subject to

change. The tax comments below are only in respect of Australian income tax and are based on the current law in Australia as at the date of the PDS. The comments do not take into account any changes in the tax law or future judicial precedents of the law after this time. Investors are strongly advised to seek their own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to investors based on their particular circumstances before investing in the Fund.

Taxation of Australian resident investors

The Fund should be characterised as a resident trust estate for Australian income tax purposes. The Responsible Entity should generally not be subject to tax on the net (tax) income of the Fund for the relevant year. Rather, the investors in the Fund are generally assessed on their share of the net (tax) income of the Fund for the relevant year.

Distributions

The whole of the Fund's distributable income (if any) for a particular income year ended 30 June will generally be distributed to investors in respect of the relevant income year. Investors should include their share of the net (tax) income of the Fund in their assessable income in the relevant income year. This share is determined based on the distribution of the different income characters by the Fund to the investors. This is the case even if the Fund does not pay a cash distribution, the distribution is reinvested in additional units in the Fund, the distribution is paid in the next income year, or where the income distributions differ to the net (tax) income of the Fund.

Tax losses incurred by the Fund remain within the Fund and cannot be distributed to investors. Provided the Fund satisfies the relevant loss testing requirements, it may be able to offset its carry forward tax losses against the assessable income it derives in a future income year.

MIT eligibility

Where the Fund satisfies the requirements of a Managed Investment Trust ('MIT'), the Fund can make an irrevocable election ('MIT Capital Election') to apply a deemed 'capital' treatment for gains and losses on 'covered assets' such as shares. The Responsible Entity intends to make the MIT Capital Election in respect of the Fund, meaning that gains and losses from disposals of the Fund's investments will be treated as being on capital account in calculating the Fund's net (tax) income and the components of income to be distributed or attributed to investors.

AMIT election

The Responsible Entity intends for the Fund to elect to be an attribution managed investment trust ('AMIT'). Under the AMIT regime, Investors will be taxed on an attribution basis (having regard to the amount and character of the net taxable income "attributed" to an investor), rather than such tax being based strictly on the share of the net income distributed to which an investor is "presently entitled". The attribution will be made on a fair and reasonable basis in accordance with the Constitution.

This attribution basis of taxation replaces the present entitlement basis of taxation for managed investment trusts. Where taxable income attributed by the Fund for an income year is either less than or greater than the cash distributed, this leads to decreases or increases (respectively) in the cost base of an investor's units in the Fund. These cost base adjustments will be notified in the AMMA Statement provided to the investor for an income year.

How resident investors are taxed

The taxable income attributed by the Fund should retain its character in the hands of the investors. Australian resident investors will need to include their share of the Fund's taxable

income in their assessable income for the relevant income year regardless of whether the investor receives a distribution following the end of the income year or the distribution is reinvested

Ironbark will send an AMMA Statement or a tax statement to investors each income year that will indicate the components of income that have been attributed to each investor from the Fund, which may include discount capital gains, non-discount capital gains, Australian source interest, dividend and other income, assessable foreign source income, foreign income tax offsets, capital gains tax ('CGT') concession, and other non-assessable amounts.

The capital gains attributed to an investor can be offset by the investor's capital losses arising from other sources. If the capital gains relate to assets held by the Fund for at least 12 months before the disposal and the investor is an individual, trustee or complying superannuation fund, the investor may be entitled to reduce their net capital gain by applying the discount CGT concession, after the application of any capital losses. The concession is 50% for an Australian resident individual or trust, and 33.33% for a complying superannuation fund. In the AMMA Statement or annual tax statement, Ironbark will advise of discountable capital gains attributed to the investor to assist the Investor in calculating their net capital gain for the relevant year.

To the extent that part of a capital gain to which an investor becomes entitled is not assessable as a result of the discount CGT concession, no adjustment to the cost base of their units will be required.

You may receive other non-assessable distributions from the Fund. Such distributions should reduce the tax cost base of the units of the investor in the Fund on which the distribution is made. Further, where the tax cost base is reduced to nil, the amount by which the non-assessable component exceeds the tax cost base of the unit will be regarded as a capital gain made by the investor that holds the unit. This capital gain will be a discountable capital gain where the investor has held the unit for more than 12 months.

Foreign income tax offset

Where the Fund pays foreign tax (such as withholding taxes) in respect of income or gains from a foreign investment, an investor may be entitled to receive a foreign income tax offset ('FITO'). Investors will include the foreign income and the FITO in their assessable income and may be eligible for a tax offset. The amount of any foreign income and FITO will be detailed in the AMMA Statement or annual tax statement provided to an investor.

The imposition of tax by a foreign jurisdiction will depend on the country in which the asset is located and income is sourced and the terms of any international tax agreement that exists between that country and Australia. These considerations may affect an investor's entitlement to a FITO. Further, the ability of the Fund to pass on a FITO to investors in respect of foreign tax paid on foreign sourced capital gains may be restricted where the gain has not fully been subject to Australian tax (as a result of application of losses or the availability of the CGT discount concession to the Fund).

The ability of an investor to claim a tax offset for the FITO attributed to them from the Fund will depend on their overall tax position. If in doubt, investors should consult their tax adviser in relation to their FITO entitlement for a given year.

Controlled foreign company income

The Controlled Foreign Company rules can attribute income to the Fund that has been derived however not distributed by a foreign company where, in broad terms, the Fund together with its associates control the foreign company. It is unlikely for these rules to apply on the basis that the Fund should not control any foreign company.

Disposal or withdrawal of units

The disposal or withdrawal by an investor of any unit in the Fund may give rise to a capital gain or capital loss that is included in the net capital gain calculation of that investor for the relevant income year. Australian income tax may be payable on any net capital gain that is made for the relevant income year. A capital gain would be made where the capital proceeds from the disposal or withdrawal exceeds the cost base of the relevant unit. A capital loss would be made from the disposal or withdrawal where the capital proceeds from the disposal or withdrawal of the unit are less than the reduced cost base of the unit.

In order to determine their capital gain or capital loss position from the disposal or withdrawal of any unit, investors will need to adjust the tax cost base of their units in the Fund for any AMIT cost base adjustments that have been advised in the investor's AMMA Statements received over the duration of their holding plus any non-assessable components distributed from the Fund before the Fund became an AMIT (where relevant). Note, a discount may be available for certain investors in calculating their net capital gain. Such a discount is available on capital gains made on units in the Fund (after the application of capital losses) where the units have been held for at least 12 months. The discount is 50% for Australian resident individuals and trusts, and 33.33% for complying superannuation funds.

In certain circumstances there may be a special attribution of income to investors who make a large redemption from the Fund. This attribution may lead to some of the redemption proceeds being reclassified as income. This income will be taxable to the investor, however, the capital proceeds to be included in the capital gain or loss calculation will be correspondingly reduced and in certain circumstances this could convert an apparent capital gain into a capital loss.

GST

GST will apply to most expenses of the Fund. All stated fees and expenses are on a GST inclusive basis, net of any reduced input tax credits, unless otherwise stated. Generally, the Fund cannot claim full input tax credits for GST incurred on expenses, however the Fund may be entitled to reduced input tax credits of any GST paid in respect of some of these expenses.

Tax file number ('TFN') declaration

On your application form you may provide us with your TFN or advise us in writing of your TFN exemption. Alternatively, if you are investing in the Fund in the course or furtherance of an enterprise, you may quote an ABN.

It is not compulsory for you to quote a TFN, exemption or ABN, however if you do not, then we are required by law to deduct tax

from any taxable income distribution payable to you at the highest marginal tax rate plus Medicare Levy and any other applicable Government charges. We are authorised to collect TFNs under tax law. For more information about TFNs, please contact the ATO.

US tax law requirements

The Fund is a Reporting Financial Institution under the Inter-Governmental Agreement between the Australian and US governments in relation to the Foreign Account Tax Compliance Act ('**FATCA**'), a United States tax law that imposes certain due diligence and reporting obligations on foreign (non-US) financial institutions and other financial intermediaries, including the Fund, to prevent tax evasion by US citizens and US tax residents ('**US Persons**') through the use of non-US domiciled investments or accounts.

To comply with the requirements under the FATCA, we will collect certain additional information from investors and will be required to disclose such information to the ATO. The ATO will share information reported to it by Reporting Financial Institutions with the US Internal Revenue Service.

For further information in relation to how our due diligence and reporting obligations may affect you, please consult your tax adviser.

Common reporting standard

The Fund is a Reporting Financial Institution under the Tax Laws Amendment (Implementation of the Common Reporting Standard) Act 2016 that implemented the OECD Common Reporting Standard ('**CRS**') in Australia, requiring Reporting Financial Institutions in Australia to report to the ATO details of their foreign investors from participating jurisdictions (other countries that have implemented CRS).

To comply with CRS, we are required to collect information from you to identify if you are a tax resident of any other jurisdiction(s). For non-individual accounts, we are also required to identify the entity type and whether any controlling persons are foreign tax residents. Processing of applications or withdrawals will be delayed or refused if you do not provide the required information when requested. Penalties can apply if investors provide false information.

The ATO will share information reported to it by Reporting Financial Institutions to tax authorities of jurisdictions that have signed the CRS Competent Authority Agreement.

For further information in relation to how our due diligence and reporting obligations may affect you, please consult your tax adviser.

6 Other information

Cooling-off period

No cooling-off period applies if you are a Wholesale Client. The right to cool-off may not apply if you are an Indirect Investor, even if you are a retail client. Indirect Investors should seek advice from their IDPS operator or consult the IDPS guide or similar type document as to whether cooling-off rights apply.

Different classes of units

Under the Constitution, we may create new classes of units from time to time and we may also close a class of units on prior notice to investors.

Indirect Investors

The Responsible Entity authorises the use of this AIG for investors who wish to access the Fund indirectly through an investor directed portfolio service, a master trust, wrap account,

investor directed portfolio service-like scheme or similar arrangement ('**IDPS**') by directing the IDPS operator to acquire units on your behalf. If you do so, you will need to complete the relevant forms provided by the IDPS operator. The IDPS operator's withdrawal conditions determine when you can withdraw. Your rights as an Indirect Investor should be set out in the disclosure document issued by the IDPS operator.

If you invest in the Fund through an IDPS, you will not become a direct investor in the Fund. The operator or custodian of the IDPS will be the investor recorded in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Unless otherwise stated, the information in the PDS applies to direct investors only.

If you invest through an IDPS, you will not receive reports or other documentation from the Responsible Entity or the Investment Manager in respect of the Fund. Instead, these will be provided to you by your IDPS operator, who is the investor in the Fund. This includes information in relation to applications/withdrawals, cooling-off periods, processing times, distributions, fees and expenses and taxation. You should contact the IDPS operator for details on how to invest in or withdraw from the Fund.

The Responsible Entity is not responsible for the operation of any IDPS. You should read the disclosure document for that IDPS together with the PDS prior to investing.

Potential conflicts of interest

Ironbark, and our various service providers may from time to time act as issuer, Investment Manager, custodian, registrar, broker, administrator, investment adviser, distributor or dealer, or be otherwise involved in other ways, in relation to other managed investments established by us, which have similar objectives to those of the Fund.

The appointment of these service providers may result in the appointment of a related entity to provide services or perform functions in relation to the Fund, including acting as our delegate. We may also enter into financial or other transactions with related entities in relation to the assets of the Fund and may sell or purchase assets from, a related entity. It is possible that appointments may have potential conflicts of interest with the Fund in the course of business.

Should we face conflicts in respect of our duties in relation to the Fund, related funds and our own interests, we have policies and procedures in place to manage these conflicts.

The Fund may be included in a separately managed account portfolio for which Evidentia receives a fee to act as investment adviser.

Unit pricing policy

Our policy in relation to the exercise of discretions in relation to unit pricing is set out in our Unit Pricing Policy and Methodology. The Unit Pricing Policy and Methodology and the latest monthly report can be provided to you directly at no cost upon request.

Disclosure

If a scheme is a disclosing entity, that scheme is subject to regular reporting and disclosure obligations. Copies of documents lodged with ASIC may be obtained from or inspected at an ASIC office. Investors can obtain a copy of the following

documents from the website ironbarkfg.com.au/investment-solutions/corporate-trustee:

- the most recent annual financial report for the Fund lodged with ASIC;
- any half yearly report for the Fund lodged with ASIC after the lodgement of the last annual report and before the date of the PDS; and
- any continuous disclosure notices given by Ironbark as responsible entity for the Fund after lodgement of the last annual report and before the date of the PDS.

Keeping you informed

We will make the following statements available to all investors of the Fund:

- a transaction confirmation statement, showing a change in your holdings, provided when a transaction occurs or on request;
- distribution statements, issued only when the Fund has distributed during the period;
- an annual tax statement for each period ended 30 June, issued only when the Fund has distributed during the period; and
- a confirmation of holdings statement for each period ended 30 June.

You may also obtain a copy of the following reports, free of charge from the website ironbarkfg.com.au/investment-solutions/corporate-trustee:

- the Fund's half-yearly financial accounts (if applicable);
- the Fund's annual audited accounts for the most recent period ended 30 June; and
- monthly investment reports providing updates on the Fund (if applicable).

In addition, you can choose whether to have a notice of meeting and any other meeting related documents sent to you in physical or electronic form. When you complete the Application Form, you will be asked to make an election (which you can change at any time). You can also request to have any specific meeting related document provided to you in physical or electronic form at any time by contacting Ironbark on the contact details shown in the PDS.

Other information in relation to the Fund, including continuous disclosure notices (if applicable), will be available at ironbarkfg.com.au/investment-solutions/corporate-trustee.
